

AMERICAN Small Farm

Volume 14, Number 2

February 2005

C O N T E N T S

Features

Demonstration Farm Is A Magical Place 5

Just south of Delaware, Ohio, amid the feverish housing and commercial development in progress, there lies a very magical place.

It is all about manure 8

An agricultural research project in Texas is looking for ways to prevent phosphorus in manure from running. What makes this project unique is the "whole-farm" approach.

Why Is There No Fruit On My Trees? 10

Home fruit production can be both rewarding and troublesome. One of the most common questions is why trees fail to bear fruit or only have fruit every other year.

Buying Farm Equipment 12

When selecting farm equipment, you have many features to consider. These considerations include the size and/or number of farm machinery equipment needed, equipment features needed and where to buy farm equipment.

Is Your Equipment Will Be Ready To Go? 13

If you are like many other farmers, you have very good intentions of getting your equipment repairs, adjustments and modifications done as soon as things slow down a little. Have you put it off again? Now is the time to check all your equipment.

Garden Records Can Help You Improve Performance 16

At the beginning of a new year, it's tempting to look back on the previous year and think of ways to do things better in the coming year.

Farm Family Finances 21

Do you find it difficult to know how much to spend each month for family living needs?

Signs Of A Healthy Horse 26

It is important for horse owners to recognize the signs of a normal and healthy horse.

Organic Farmer/Grower Section

'Grubby' Research Promises Environmental/Economic Benefits 18

Jeff Tomberlin's research could lend a completely new meaning to the phrase "grub for a living."

Herb Growing And Marketing Tips 32

Fresh herbs are a delight to the eye as well as the nose. Whether you work in a small back yard garden, a large greenhouse or acres of field, here are tips and techniques that will work for you.

What Is Biological Pest Control? 34

Biological control is, generally, man's use of a specially chosen living organism to control a particular pest.

Columns & Departments

Small Farm Talk 3

There is a revolution going on and many folks don't even know about it. And it has been going on for quite some time.

Homeland Treasures 24

Yolanda & Friends Quilt Patterns are featured.

On The Bookshelf 36

Books that can help you do a better job and life the good life on your place in the country.

Calendar 38

Farm shows and events for learning and enjoyment.

Over The Fence 40

This column is a place for you to share and learn about what is happening on family farms.

Recipes 42

See "red" on Valentine's Day and throughout the year. The Produce for Better Health Foundation (PBH) calls red fruits and vegetables "red-hot and healthy."

Product Review 46

Rural Reflections 47

Here in the Midwest, there is a phrase that is used to describe these bleak, cold days of February; they are referred to as the "dead of winter." A solution is to stay positive.

American Small Farm Magazine is proud to support FFA

About the cover

Farm shows, annual meetings and educational events monopolize farmers' late fall and winter schedules. We will give a free classified ad (up to 25 words) to readers who correctly identify the farm show that is represented on our cover.
